- User-Centered Design & Design Thinking
- Usability Testing & User Research
- Wireframing, Prototyping & User Flows
- Digital Analytics & Performance Insights
- Website & Digital Experience Optimization
- Accessibility & Inclusive Design (WCAG)
- Cross-Functional Collaboration
- Documentation & Presenting Recommendations

TOOLS & PLATFORMS

Figma • Google Analytics • Meta Business Suite • Adobe Creative Suite • Canva • Microsoft Office • Google Workspace • React & Tailwind CSS (Foundational)

PROFESSIONAL EXPERIENCE

Marketing Coordinator | RAK Porcelain USA | *May 2026-Present*

- Manage an integrated marketing calendar across digital channels, coordinating social media content, publication submissions, advertising, and campaign timelines.
- Collaborate with the global corporate website team to identify opportunities to improve website content, functionality, and user experience; recommended enhancements that were implemented across the site.
- Monitor website-generated inquiries through backend systems, review and organize lead information, and route customer inquiries to appropriate sales representatives for follow-up.
- Analyze digital performance through Meta Business Suite and create, edit, and proof multimedia content across LinkedIn, web, social media, advertising, and publication channels.

DIGITAL PRODUCT & UX EXPERIENCE

PlayMix – UX Design & Front-End Development
Information Science Capstone | University of Pittsburgh

- Designed an interactive companion application for Spotify from concept through final delivery as part of a cross-functional team.
- Created wireframes and a Figma prototype and conducted usability testing focused on interface clarity, accessibility, and user flow.
- Translated user feedback into iterative product improvements and supported additional testing, feature development, and system documentation.
- Built the front-end experience using React and Tailwind CSS and independently resolved deployment issues to enable team testing.

DISCO Workshop | UX Design Intern
University of Pittsburgh Digital Media Lab | Spring 2025

- Supported visual and interaction design for an accessibility-focused, human-centered design toolkit.
- Developed wireframes, design materials, and an accessible style guide based on WCAG standards and user needs.
- Collaborated with UX researchers, project leads, illustrators, and fabrication partners to refine solutions through iterative feedback.

ADDITIONAL EXPERIENCE

Strategic Communications Intern | Pitt Athletics | 2025-2026

- Collaborated across teams in deadline-driven environments to execute digital content and communications with an emphasis on clarity, organization, and audience experience.
